Thank you. While you were reviewing the summary, I reviewed a couple of the RURR letters and saw that for bldg. 343 and 344, the CDPH RURR memo had a different date and we had a DTSC letter dated Jan 16, 2009 so I revised accordingly. Likewise, for Building 233, I edited to include the DTSC letter along with the CDPH RURR.

I will send it back to you after RASO review.

Thanks Sara Ann. Please see the attachment for a few proposed edits for your consideration. I look forward to taking another look after RASO's review, before you post it.

v/r,
mdn

Please review the attached. This version incorporates comments and edits from DC and Janet. DC - I have one question for you regarding the compliance work.

Marvin - we are planning to post on the BRAC website (after RASO approval), so I'd appreciate your review.

Thank you,

Sarah Ann
